

Gregor: Your first choice for smarter heating solutions

Gregor is a Which? Trusted Trader and has been helping families in and around Bristol and Bath to heat their homes for over 30 years. Every year we are proud to install over 3,000 boilers in the local community. We are also experts in:

- Air Source Heat Pumps
- Solar PV
- Solar Thermal
- Oil
- Renewable Technologies
- Electrical work

Save money
A properly maintained boiler will:

- Increase efficiency
- Improve reliability
- Reduce running costs
- Keep your family safe

Easy payment options available.

Heat:Plan Club Additional Benefits

Heat:Plan Club members also enjoy access to a wide range of exclusive member benefits and discounts on standard products and services.

Powerflush

Sludge can cause your central heating system to underperform and become inefficient. A system powerflush removes sludge, improves efficiency and reduces running costs.

	Standard cost*	Discounted member's price	Saving
Full system power flush (for up to 8 radiators)	£420	£380	£40

System Filter

System filters are easily fitted retrospectively and will safely collect magnetic contaminates/debris formed in your central heating system. Our engineers will then clean the filter as part of your annual service to help improve and maintain the efficiency of your system.

	Standard cost*	Discounted member's price	Saving
Install system filter	£299	£250	£49

Smart Thermostat

Smart Thermostats allow you to save on your energy bills by controlling your heating with your phone.

	Standard cost*	Discounted member's price	Saving
Install smart thermostat	£180	£150	£30

Full details of available member benefits and discounts are available on our website.
